Predlogo izreži po zunanem robu, nato prepogni po črčkani črti, zlepi in razreži še po vodoravnih črtah, da dobiš kartice.

Učiš se tako, da prebereš, kar vidiš (po želji izberi slovensko ali angleško stran, predlagam, da začneš s slovensko). Poveš drugo različico, obrneš kartico in preveriš pravilnost odgovora. Če je pravilen, odložiš na eno stran, če ni na drugo. Lahko si narišeš tudi zelen in rdeč krog za pravilne in nepravilne odgovore in odlagaš tja. Nato umakneš kartice z besedami, ki si jih znal in vajo ponoviš z drugimi.

Veselo na delo!
